

## KVD-65/68 Web-Keyboard

Vandal resistant stainless steel keyboard with 65 keys as front-plate. As built-in version, with or without trackball.

### Description

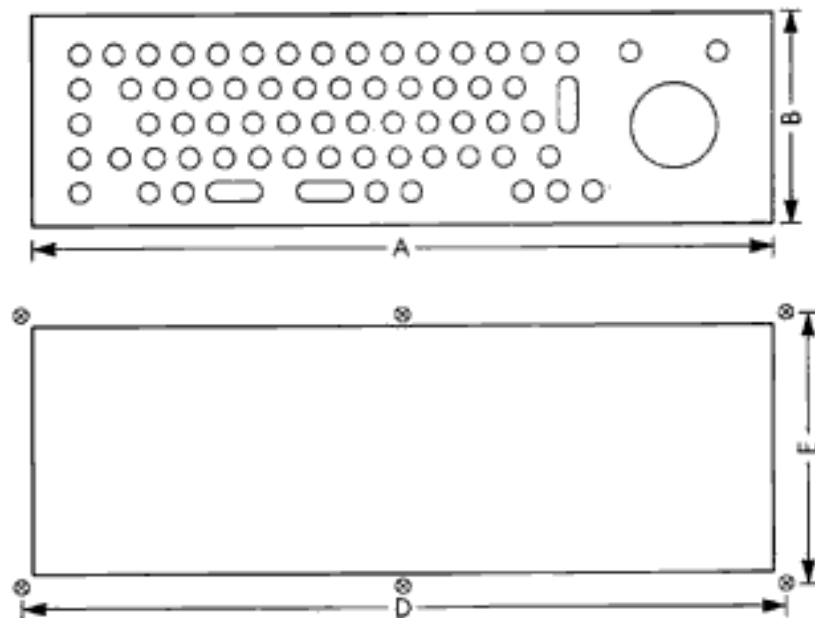

This robust stainless steel keyboard is especially designed as web keyboard with 65 keys. The keyboard has Windows or Function keys. But it covers all the keys needed to easily surf within the Web, like http://, www., .com .net, @, etc.

### Application Areas

This keyboard has a wide range of uses in many fields due to its robust construction that is virtually indestructible. Such areas are points of information or ticketing machines.

### Features

- The laser-etched key caps do not allow the legends to wear off, they cannot be pulled out and are not inflammable.
- The thick front plates of 2.5 mm high-grade steel make these keyboards extremely durable and protects them from effects by force.
- This keyboard has 65 high-grade steel keys with a stroke of 3.5 mm. Therefore it is one of the best high-grade steel keyboard, that permits high-speed writing.
- Dust- and waterproof according to DIN IP 65
- With integrated stainless-steel [Trackball](#) available
- Without any function- or control keys
- International layouts available
- With [USB](#) or [PS/2](#) port

## Specification

### Mechanical data

Dimensions: <a href="#">Trackball</a>	350 x 129,2 x 25 mm 329,23 x 129,2, x 25 mm
Degree of Protection:	IP65
Cable Length:	180 cm

### Keys

Number of Keys:	65, 68
Keyboard Layout:	Terminal
Operational Life:	10 mio. keystrokes min.
Actuation Force:	0,65 N
Stroke Travel:	3,25 ± 0,25 mm
Key Legend:	Laser

### Electric Data

Interface: [PS/2](#)  
 Operating Voltage: 5 V  
 Operating Current: 50 mA

---

### Temperature

Operating Temperature: from -20 °C to +60 °C  
 Storage Temperature: from -40 °C to +70 °C
