

GTG-71/62 Silikonschaltmatte

Silicone mate with 62 or 71 keys, PC like layout, optional Platine

Description

The silicone conductive mat of the series of GTG-71 has an alphanumeric layout with 71 keys, like a standard PC keyboard. Beside the main key field a number block and the cursor keys are separately arranged.

The keyboard is very compact. By the high-quality contact piles the keyboard is very reliable in industrial applications.

The key mat can be customized and also even in the layout.

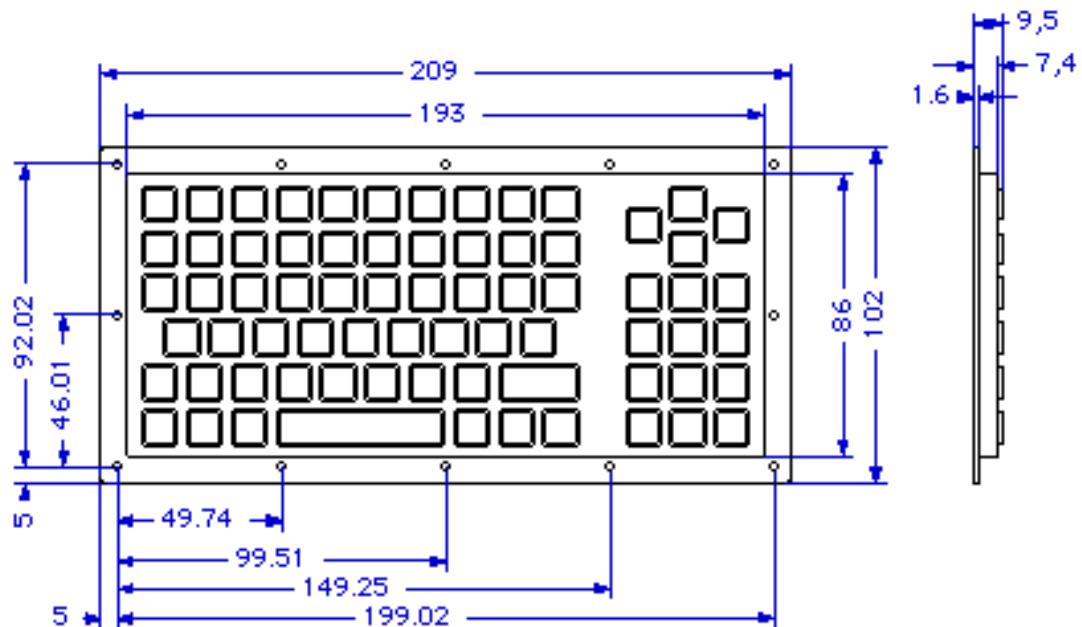

To the basic features you find also further information in the overview of the GTG-62 and GTG-71 product series at the bottom of this page in "catalog cross reference".

- Internet and Windows95 keys
-

The PCB

Suitably to the mat there is also a PCB ready for installation with integrated controller.

The controller is like the GCK-940 and can likewise be customized to your needs.

Specification

Mechanical data

Dimensions:	209 x 102 x 9 mm
Weight:	0,1 kg
Degree of Protection:	IP65
Housing:	Rubber
Color:	grey

Keys

Key Technology:	conductiv rubber
Number of Keys:	71 & 62
Keyboard Layout:	MF2-German
Operational Life:	5 mio. keystrokes min.

Actuation Force: 1,3 N
 Key Legend: silk screen

Environment

Operating Temperature: from -40 °C to +150 °C
 Storage Temperature: from -50 °C to +175 °C
