

## KFT-104/105 Compact 19" Version with Touchpad or Trackball

As 19" version this foil-covered short-travel keyboard with integrated touchpad or trackball is IP65/NEMA4 water- and dustproof and can be easily integrated into a 4HE slot of a 19" rack system.

### Description

### Applications:

The 19"-version of the KFT-104/105 compact series is suitable for the application within the areas automatic production, chemistry, laboratory and medical technology as well as in the environment of information systems where a space-saving and waterproof keyboard and mouse input for a switchboard is particularly needed.

The german and american layouts are standard. Other country versions, as well as customized adjustments are available on request.
