

KIQ-88 Wireless Keyboard with integrated Mouse Device

Compact Size Keyboard with operating range up to 10 meters

Description

KIQ-88 is a 2,4 GHz RF wireless compact keyboard with integrated thumbstick and two mouse buttons on the left hand side top of the keyboard.

To match the demand for home entertainment and industrial applications, the wireless version of the KIQ-88 has been developed.

Up to 10 meters operation range, slim design, a thumbstick and two standard mouse buttons are the most important features of this keyboard.

It comes in a silver or black design.
