

## KVS-66 with Stainless Steel Trackball as Front or Back Panel Mounted Version

Vandal resistant stainless steel keyboard with integrated trackball

### Description

### Applications

This reliable keyboard is ideal for use in modern internet terminals or in outdoor areas with danger of vandalism.

### Features

This vandal resistant keyboard has steel keys with a travel of 3 mm that stand out of the frontplate. This makes this keyboard as simple to use as a standard PC-keyboard.

The keyboard is available as front or back panel mounted version.

This robust stainless steel keyboard is especially designed for kiosk and public environments. The keycaps made of stainless steel are non removable and therefore vandal resistant. It comes with a [PS/2](#) interface.

Customized solutions as well as different country layouts on demand.
