

KVS-90-Trackball

Elegant stainless steel keyboard with integrated trackball

Description

Applications:

This keyboard is suited for public areas prone to vandalism as well as for areas where hygiene is a must such as kiosks, points of information, industry and medical applications.

Special characteristics:

The integrated 38mm [Trackball](#) is IP65 / NEMA4 waterproof and offers exact cursor control due to its size and weight.

The front-panel version with 90 keys has a standard WIN95/98 layout.

A pleasant tactile feeling is achieved by the use of short travel keys.

IP65 / NEMA4 dust and waterproof.

On demand all keyboards can be re-designed to adapt to user requirements.

Order Information

For orders of at least 10 keyboards is possible to laser-imprint your logo onto the keyboard. Your terminal will become more recognizeable with your or your customer's logo on the keyboard.

All we need is a .dxf (AutoCad) or .cdr (Corel Draw) file and the information on where you would like to place the logo on the keyboard.

The setup cost is DEM 180.00 and will only be charged once. The cost of each specially lasered keyboard is the regular list price plus DEM 25.--.
