

## KWD-102 Table-Top for 19-inch-drawer

Optional with integrated fingermouse-function. In black or gray design.

### Description

Due to the complete protection of the electronic components, all contacts and mechanic guide elements the long-travel keyboard is ideal for applications in rough environments.

Further specials are on the one hand the integrated fingermouse function. Therefore, neither an external mouse nor an external [Trackball](#) is needed. On the other hand different country versions are available e.g. cyrillic, czech, norwegian, etc. The compact shape in 19-inch format saves valuable desk or workshop space. Comes with [USB](#) interface.

### Features

- A finger mouse can be integrated into the cursor-up key, which makes an additional mouse unnecessary (see closeup).
- The durable housing shows a very high twisting rigidity.
- The two-colored key caps insure a resistance to high long-term demand.
- Great tactile feedback and 3.25mm of travel make this keyboard just as comfortable and ergonomic to us as a standard office keyboard.
- In order to avoid soiling of the key gaps we recommend the protective plastic film.
- The keyboard can be customer-specifically adapted and is available in different country version layouts.
- These keyboards are available on request at the same price with XT interface.
- Comes with USB or [PS/2](#) interface.
-

**Specification****Mechanical data**

Dimensions:	405 x 185 x 44 mm
Weight:	1,4 kg
Housing:	Plastic
Degree of Protection:	IP65
Color:	computer grey and black

**Keys**

Key Technology:	carbon contact
Number of Keys:	102
Keyboard Layout:	German or MF2-Country
Operational Life:	10 mio. keystrokes min.
Actuation Force:	0,65 N
Stroke Travel:	3,25 mm
Key Legend:	2-komponent plastic molded

**Electric Data**

Interface:	<a href="#">PS/2</a>
Operating Voltage:	5 V
Operating Current:	30 mA

**Environment**
