

# KWS-108 Hygienekeyboard

degree of protection IP68 and dishwasher safe

## Description

### Application:

This keyboard is especially suitable for industrial applications, where a high degree of protection and a good cleaning ability is required. Neither water, dust, disinfectants, alcohol, blood, acids and many more substances can damage the keyboard. Due to the construction of the key mechanics you have a very nice tactile feeling. This makes this keyboard also universally usable.

### Special features:

- \* Silver Seal Protection - antimicrobial plastic reduces bacteria growth
- \* 100% waterproof and dishwasher safe, with seal cap for USB cable
- \* Plug and Play

# KWS-108 Hygienekeyboard
